

**Model:**  
ADP-47A3 DOPPIO

**Index:**  
A31A247

**EAN:**  
5905548270081

**Description:**

The ADP-47A3 "DOPPIO" intercom consists of: an external module, two internal modules (uniphones) and two power supplies. Its basic features are as follows:

- designed to serve two independent users (premises, apartments), allowing the common entrance zone to be served by one external module,
- the ability to conduct a conversation between external and internal modules,
- direct control of the electromagnetic lock used to open the door,
- simplicity of use and assembly,
- safe voltage supply from the power supply.

**Characteristics of the set:**

- handset intercoms,
- ringer volume control,
- single input support,
- 2-room cassette,
- flush-mounted cassette installation,
- cassette made of aluminum alloy - resistant to weather conditions,
- permanent backlight of the business card holder,
- possibility of self-assembly.

**Technical specifications:**

**Set**

Supply voltage	12VDC
Power consumption - standby/work	0.5W / 2.3W
Number of connecting wires	2
Number of inputs supported	1
Intercom	NO
Possible expansion	NO
Package dimensions	244 x 313 x 78mm
Gross weight of package	2300g
Type of packaging	Cardboard

**External cassette**

Output voltage for electromagnetic lock	Lack
Type of communication	Wired
Max. number of tenants	2
Housing material	Aluminum alloy
External cassette mounting method	Surface/flush mounted
Proximity reader	NO
Protective roof	NO
Protection factor	IP44
Monitor operating temperature range	- 18°C ~+45°C
External dimensions	200x116x60mm
Net weight	340g

**Uniphone**

Output voltage for electromagnetic lock	12VDC
Number of gong melodies	1
Handsfree	NO
Temperature operating range of the cartridge	0°C ~+55°C
Dimensions of the intercom (H x W x D)	215x98x60mm
Waganettouniphone	380g
