

EXTERNAL CASSETTE MODULE

Model:

VXA-58A5

Index:

A53A158

Description:

Frame module, allowing for the installation of three Eura 2 Easy modules for modular external cassettes.

Among the available modules that a cassette can consist of are:

- 3.5" colour TFT LCD display, which significantly facilitates operation and configuration of device settings,
- proximity card reader module, allowing for programming of up to 320 cards, which, when brought close to the reader, allow entry to the premises,

- a touch and backlit keyboard module that significantly speeds up the device configuration, selection of the premises to be called, as well as the ability to enter a password to enter the property.

Technical specifications:

External cassette

Power supply voltage	----
Video signal parameters	----
Number of cables required	----
Number of premises served	----
Screen type	----
Menu language	----
Latch release supply voltage	----
Power consumption - standby / operation	----
Image resolution	----
Screen size	----
Camera viewing angle horizontally/vertically	----
Camera sensor type	----
Bolt activation time	----
Housing material	Stainless steel
Number of relay outputs	----
External cassette installation method	Concealed
Adjusting the camera eye position	----
Night lighting	----
Proximity reader	----
Encryptor	----
Fingerprint reader	NO
Protective roof	NO
Protection factor	IP44
Temperature range of the cartridge	- 18°C ~ +55°C
External cassette dimensions (H x W x D)	316x133x48mm
Net weight of the cassette	1001g
Package dimensions (H x W x D)	368x145x77mm
Gross weight of package	1152 g
Package type	Cardboard
