

SEPARATOR MODULE

Model:

VXA-45A5 v.2

Index:

A53A145

EAN:

5905548272252

The VXA-45A5 separator module is an integral part of the "EURA 2 EASY" system, its task is to adapt the power supply to the non-polarized 2-wire system bus. It must always work with a dedicated power supply with a voltage of DC 24V.

Technical specifications:

Accessories	Module
Supply voltage	24V DC
Number of connecting wires	2, non-polarized
Max. number of tenants	32
Power consumption - standby / operation	0.25W / 0.5W
Dimensions (H x W x D)	89 x 35 x 59 mm
Operating temperature range	- 5°C ~ +45°C
Logistics data	
Package dimensions (H x W x D)	100x85x60mm
Gross weight	260g
Package type	Cardboard
