

CLS-958

Integrated High Quality Ceiling Speaker

Round ceiling speaker. Prepared to be embedded in a registered ceiling.
Speaker for offices, shops, stores, and in those places where you want to listen to music or acoustic messages.

It incorporates a 5.25" subwoofer speaker.

Voltage: 70 - 120 V., Power: 10-35 W., Sensitivity: 92 dB.

CLS-958 ceiling speaker feature magnetic metal mesh for easy instalation, while an 8 ohm bypass setting allows use with regular home audio receivers and amps. The product is made to produce powerful, rich sound or quiet background music.

Flush mount design midbass speaker for simple and easy in-wall / in-ceiling installation.
