SF-AC2202-WIP

Access Controller

Access Controller

Professional biometric and RFID card access controllers with multi-door function are adaptable for all types of environments. They can be integrated with different readers or standalone devices.

- Access Controller

- Card and password Identifciation

- TCP/IP Communication

- 4 Wiegand 26/34 inputs

- 2 doors

- 2 alarm outputs

Technical Specification

Working Voltage	12V
Processor	32-bit
RAM	8M
Wiegand	Wiegand 26/34
Communication interface	TCP/IP
Storage	10.000 Cards 50.000 Records
Accesible Card Reader	4 Card Readers
Door contact input	2
Exit button	2
Case Input	2
Lock control	2
Alarm output	2
Power consumption	≤3.5 w (without load) ≤100 w (with load)
Working temperature	-20°C to 65°C (-4 °F to 149 °F)
Dimensions	285 mm × 237 mm × 69 mm (11.22" × 9.33" × 2.72")
Platform	Safire Control Center
