

Access Controls / Controllers

SF-AC2402-WIP

Access Controller

Access Controller

Professional biometric and RFID card access controllers with multi-door function are adaptable for all types of environments. They can be integrated with different readers or standalone devices.

- Access Controller
- Card and password Identification
- TCP/IP Communication
- 4 Wiegand 26/34 inputs
- 4 doors
- 4 alarm outputs

Technical Specification

Working Voltage	12V
Processor	32-bit
RAM	8M
Wiegand	Wiegand 26/34
Communication interface	TCP/IP
Storage	10.000 Cards 50.000 Records
Accessible Card	4 Card Readers
Door contact input	4
Exit button	4
Lock control	4
Alarm output	4
Power consumption	≤3.5 w (without load) ≤100 w (with load)
Working temperature	-20°C to 65°C (-4 °F to 149 °F)
Dimensions	285 mm × 237 mm × 69 mm (11.22" × 9.33" × 2.72")
Platform	Safire Control Center
