# BRAVO PSTN VD
Communication Module with Voice Dialer

Description

BRAVO PSTN VD is a communication module with dialer for voice messaging. The module is designed for operation in BRAVO wireless intruder alarm systems.
The module is mounted into BRAVO panel via serial interface connection. The BRAVO PSTN VD module sends messages for events to 2 telephone numbers - to monitoring station (CID or SIA communication protocols) or directly to User (User communication protocol - audio call on Alarm only or Voice dialer).
The module can be programmed via ProsTE software or AjaxWEB user web interface.
