

ABO-20F

Infrared barrier detector

Wired | 1 beam

Max distance. detection 10 / 20 m

Smaller size and easy installation

Relay

Power supply 9~16VDC/VAC

Single beam infrared barrier for outdoor

Wired

Maximum detection transmitter / receiver 20 m (interior) and 10 m (exterior)

Reduced size

4 work frequencies

Power 9-16 VDC/VAC

Specifications

Detection range	20m indoor / 10 m outdoor
Number of beams	1
Detection method	Infrared beam interruption
Frequency channels	4 different channels over DIP Switch
Alarm outputs	1 relay NO/NC (max. 36VDC/VAC, 1A)
Adjustment method	Over LED
Operating temperature	-25°C ~ +55°C
Power	9~16 VDC/VAC, 20 mA max.
Dimensions	69.5 (H) x 26.4 (W) x 22.5 (D) mm
