CON100-CRIM

Features

Special crimp tool for male BNC connectors on different types of coaxial cable.

It is a tool with the die ready to fix the central golden point to the coaxial cable without welding, and to set the outer ring so that it is secure and connected to the cable, resulting in a highly professional finish and quality. It has an adjust screw that can adapt the crimping tool to the exact diameter of the used connector, achieving an optimal result.

Compatible with our connectors CON100 and CON110, and the cables RG59 and RG59U.
